

## Review Arena of Valor

### Tencent Games

Tencent Games brings us the possibility of playing a MOBA on mobiles with Arena of Valor. The app is free to download and offers more than 40 heroes to form competitive teams. Classic 3-lane maps and a variety of game modes in one of the must-have apps for your library

Arena of Valor is a **free download application** that belongs to one of the most important genres of **games** of the moment. Tencent Games' proposal is a MOBA, also known as an online multiplayer battlefield in which a player can choose a single character and a team with a captain who will face another group of users to destroy the main structure of the base of opponents. There are many examples of MOBA among which the most recognized are League of Legends, Dota 2, Vainglory or Mobile Legends.

Arena of Valor is a **free app** that can be downloaded to mobile phones with Android and iOS operating systems at no cost. In-app purchases are then offered.

One of the **advantages of Arena of Valor** is that you can register as a guest or through a Facebook account. Therefore you will have the opportunity to link all your friends who are part of the social network, on the other hand, you can always register as a guest and also keep the progress you have made.

Once you register, keep an eye out for choosing a good nickname or nickname. This will represent you throughout the battles and you cannot change it later.

So now you've been through training ground and ready to seek glory in Arena of Valor!

Among one of the most important options to take into account when starting to **play Arena of Valor** we find the distance from the camera. It will be very important that you organize a good way to see the playing field proposed by the application.

The graphic section of the Tencent Games proposal is one of its highlights. If you have an HD screen you will make a big difference, Arena of Valor is a high graphic quality game and you will want to run the FPS (frames per second) as high as possible. If you have a latest generation phone it should work perfectly. With the highest possible quality.

As usually happens in installments of these characteristics, we find a 5vs5 game in which they will fight a fight on a 3-lane map full of surprises and enemies. Arena of Valor controls are specifically configured for proper operation on mobiles.

The formation of your team will be the most important point in this type of game. The members will have to occupy different roles each one that will make the strategy to win victory. **Downloading Arena of Valor** for free will give us the chance to use a variety of more than 40 heroes with different classes, including: tank, warrior, assassin, mage, marksman and support. You must choose your hero well, always taking into account what style of play is your favorite to carry out.

Among the **Arena of Valor game modes** you can enjoy classics like First Blood, Double Kill and Triple Kill. 5v5, 3v3 or 1v1 battles can be organized. It also has a very entertaining alternative called "Hook Wars". In this option the fight takes place in a scenario that represents a ship. The teams will face each other to dominate the territory with the aim of getting a significant loot.

The possibility of **downloading Arena of Valor** on our mobile phone allows us to transfer the emotion of a very popular genre to the palm of our hands. For this reason, the Tencent program not only has its controls optimized for this function but they have also developed a fast and successful matchmaking system. You can play epic battles in

just a few minutes and, in addition, each game has an average duration of 10 minutes.

Arena of Valor rewards skill over spending money. In other words, in-game purchases only provide cosmetic items and there will be no differences between users who decide to spend money or not within the app. Those responsible for the proposal seek to make it as balanced as possible.

If you are a follower of these types of games, or if you have not discovered them yet, with Arena of Valor you have a great opportunity for fun in your hands.

Pros	Cons
<ul style="list-style-type: none"><li>- Good configuration of controls.</li><li>- Free download.</li><li>- Good graphics.</li><li>- Quick games.</li></ul>	<ul style="list-style-type: none"><li>- Some problems on the server.</li><li>- The reporting system must be improved.</li><li>- The pairing may be faulty.</li><li>- Toxic community.</li></ul>
